**PT-2430PC – for your business applications –  
in the office or in the field**

The PT-2430PC is perfect for a busy office because virtually anyone can begin using it simply by connecting it to their PC. The intuitive built-in software enables users to produce labels for the majority of typical business needs. For making more complex labels with a variety of symbols and industry-standard bar code symbologies, it also includes the full version of P-touch® Editor software on CD.

The PT-2430PC accepts up to six tape widths for making labels as narrow as 9/64", and as wide as 1"▲. A built-in auto cutter can be set to cut at a length you choose, or automatically, based on the content of your label. Power is supplied by using either the included AC adaptor (AD-24ES) or by 6 "AA" alkaline batteries (not included) for easy portability.

**PT-1230PC – for your home or home office**

For lighter duty at home or in a small office, consider the PT-1230PC. It offers the same simple connectivity, and built-in software as the more robust PT-2430PC in a slightly smaller device that prints on up to four tape widths – from 9/64" up to 1/2"▲. This model features a manual cutter and is powered by 6 "AAA" alkaline batteries (not included). For added functionality, an optional AC adaptor (AD-24) can be purchased separately.

**Compact design and battery-power† supports on-the-go printing (AC adaptor also included)\***

**Built-in automatic cutter\***

**Prints multiple lines of text and graphics plus symbols, logos and more**  
(Barcoding and database printing available by installing included full version P-touch® Editor software)

**Great for labeling file folders, CD spines, making small signage and much more!**

\* PT-2430PC only. ▲ Additional purchase required.  
† Batteries not included.

## PT-2430PC & PT-1230PC Label Makers

**Easy to use. Easy to share in your office.  
And secure ... no software to install, means  
no software to remove later.**

P-touch® PC-connectable label makers – with Plug & Label™ functionality – will have you making professional looking labels – with text and graphics – in seconds.

Just connect to your desktop or notebook PC via the included USB cable to get started. No software installation is required because the easy-to-use software is pre-loaded on the label maker. That means when you're done, simply turn it off and unplug. There's nothing left behind on your PC.

Creating labels is a snap. Use any of your PC's installed TrueType® fonts. Import graphics like logos and symbols from your PC. Make and print almost any label that you can imagine. You can also save your label designs to your desktop for future use.

Plus, using your PC's mouse and keyboard makes typing and designing your labels easier than ever.

**Easy to use – no software installation required**

**Compatible with six different label widths, up to 1" wide\***

**Use your PC monitor to create labels – Print exactly what you see on screen!**

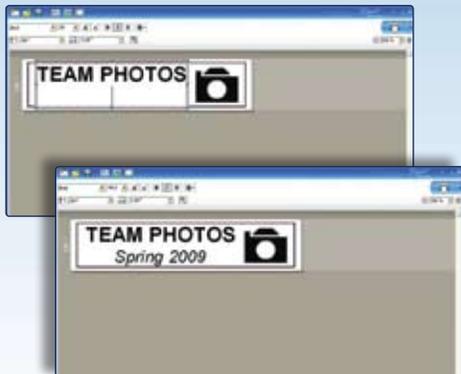

PT-2430PC

## Fast Plug & Label™ Technology ... It's easy.

There's practically no start up time. Plug it into your PC's USB port. Then use the device's built-in software to start generating labels. After you connect it to your PC, the built-in software guides you every step of the way.

### Create & edit ...

Simply type the information you want on your label. Easily import any text or graphics – like logos or symbols – from your PC.

Arrange elements on your label to your preference – what you see on screen is just how your label will print.

### Print & apply ...

Print your label. Then peel off the label backing and apply.

## Interchangeable tape cassettes

Change tape widths and colors in seconds with interchangeable TZ tape cassettes. Choose from a wide variety of TZ tapes to match your application – use Standard Laminated Tapes for indoor and outdoor use, or use one of our specialty tapes for labeling everything from wires and cables to rough textured surfaces to protecting valuable assets and more.

## It's secure.

When you are done making labels, simply turn the labeler off and disconnect from your PC. Nothing is left behind.

It's the PC-connectable label maker your IT department will never worry about. It's safe and easy to share throughout your office – since no software is left behind.

## Compact and lightweight - it's easy to carry with you

Weighing approximately one pound, these models support convenient, on-the-go labeling. Perfect for:

- Field technicians

- Name badges

- Hospitality & events

- Trade shows

## Switch modes for even more advanced labels

While the built-in Editor Lite software will support the majority of everyday labeling needs, both models are capable of advanced labeling applications - such as generating bar codes and printing from a database.

For more sophisticated labels, simply install the full version of P-touch® Editor software, and change operation modes from "EL" to "E" by moving the switch on the back of the labeler.\*

Flip this switch to work with P-touch® Editor to make more advanced labels!

**RETURN KEYS TO  
GENERAL MANAGER  
WHEN SHIFT IS OVER**

\* P-touch® Editor software is included with PT-2430pc. It is also available for the PT-1230pc via a free download from [www.brother.com](http://www.brother.com). It requires installation on your PC.

## At a Glance ...

The PT-2430pc and PT-1230pc PC-connectable label makers are perfect for any home, office or field application. With either model, anyone can quickly, easily, and securely create and print durable, self-adhesive labels right from their PC. Both models accept a wide range of TZ tapes in a variety of colors and sizes.
