EB-585W

3300 lm	10,000:1	WXGA	16 W
	WiFi	2x HDMI	USB
100 / 60	60cm / 100in		

Bring the classroom to life with our brightest ultra-short-throw, 3LCD projector.

Deliver high-quality classroom presentations with fewer shadows using this 3,300 lumens projector from the world's leading projector manufacturer[1]. The EB-585W projects a large, widescreen image from a very short distance thanks to its ultra-short-throw capabilities.

Quality image
Epson's 3LCD technology ensures high-quality images with equally high White and Colour Light Output for vivid colours and bright images, even in daylight, and three times brighter colours than leading competitive projectors[2]. WXGA resolution, that matches the resolution and aspect ratio of most laptop displays, and HDMI input mean that students benefit from sharp, clear projected images.

Reliable
Project for longer with improved reliability and a longer lamp life of up to 6,000 hours.

More control and collaboration
The multi-PC projection software allows teachers and students to share their content simultaneously. The moderator function allows teachers to remain in complete control since they can choose when to display student content – ideal for interaction in a collaborative teaching or training environment.

Save time
Simply plug in and turn on – there's no warm-up time, and with a wall-mounting bracket included in the box, it's easy to get started.

Wireless projector
The wireless capability allows you to share content easily from a range of smart devices using the iProjection App[3].
